

JOB OFFER

Radiologist in Denmark

THE JOB

We offer an exciting job with good development and research opportunities in a well-functioning team in a University hospital in the north of Denmark.

Do you want to work with PET / CT and SPECT / CT?

Help diagnose and stage cancer patients?

Participate in MDT conferences in close and equal collaboration with clinical colleagues?

Participate in research projects?

Be in an inspiring environment where collaboration, job satisfaction, quality and humor are paramount?

- then we have the position for you.

There will thus be ample opportunity to grow up as a professional, including developing new areas.

The position is duty free.

Educationally, we have a very good learning environment, as is evidenced by the inspector reports. It helps secure our younger medical colleagues a solid basic and specialist education, and one of your tasks will be to supervise younger doctors in training.

We are looking for a specialist in radiology. It is expected that the head of department / surgeon who conducts clinical work is actively involved in research, development and education, including supervision and guidance of education-seeking doctors, conferences and teaching.

SALARY & CONDITIONS

- Salary starting from 7000€ gross per months.
- Full time employment 37 hours per week; good working conditions; Six weeks paid holiday.
- Permanent contract.
- Duties will be paid apart.
